

# Conversion to Natural Gas

## Parish Utilities Project

We have long hoped for the opportunity to convert from Oil to Natural Gas and this year the Gas Company has agreed to install gas lines. The good news is that the installation will not cost us anything. The bad news is that we have to change our boilers, hot water heaters and run new gas lines in the buildings for the HVAC equipment and for the other gas-fired appliances such as ranges in the Rectory, Parish Hall and Caretaker's residence. We shall also have the cost of removing the aboveground oil tank and decommissioning of the three in-ground oil tanks.

Our target for Phase 1 is **\$40,000**.

**WE APPRECIATE YOUR KIND ASSISTANCE IN OUR FUND-RAISING.**
